## WORKSHOP MENU

### SERVICE PACKAGES

#### BASIC SERVICE - £30

Gears setup and finely tuned for best performance • All cables lubricated and inspected • Brakes setup and inspected  
All bolts checked and a safety check carried out • Tyres/tubes inspected and inflated to correct pressure • Any issues highlighted

#### STANDARD SERVICE - £60

Bicycle will be cleaned and transmission degreased • All components removed from the frame for maintenance and inspection. Any worn parts will be replaced after authorisation to do so • All bearings (headset, bottom bracket and wheels) checked and adjusted. Wheels are trued and tensioned • Gears and brakes setup and finely tuned • Cable slick applied to all cables

This is a part strip down of the bike, if the bike requires all cables and a lot of parts replacing there will be an extra labour charge or advised to change service to a Ultimate.

#### ULTIMATE SERVICE - ROAD £120 / MTB £150

The cheapest way to trick yourself into thinking you have a new bike.

Bicycle is stripped down to the frame and degreased and cleaned • All components removed, degreased and cleaned  
Frame checked for damage/corrosionFrame polished and protected • Serviceable hubs are overhauled - stripped down and rebuilt.  
All inner and outer cables replaced as part of the service • Wheels checked for rim wear, dishing, buckles and spoke damage.

Wheels are trued and tensions checked • Hydraulic brakes bled (MTB)

Any new parts are fitted under the service cost, these parts are chargeable.

**This is the full works, you will be surprised on how amazing your bike looks and rides!**
